

# Celebrating Parents and Caregivers!

Forest Park Public School District 91

**District 91 would like to thank our parents and caregivers** for being involved in their children's education both at school and in the home. There is no question that District 91 parents and caregivers play a pivotal role in helping to shape the educational outcomes for their children. And the most significant type of involvement is what our parents and caregivers do in the home. By monitoring, supporting and advocating, parents and caregivers can be engaged in ways that ensure their children have every opportunity for success.

## Engaged Parents and Caregivers Make All The Difference

- When parents and caregivers are strategically involved in children's learning at school and in the home, student achievement significantly improves and schools are more effective.
- Students with involved parents and caregivers achieve more, regardless of socio-economic status, ethnic/racial background or the parents' education level.
- Plus, students with engaged parents and caregivers have higher grades and test scores, better attendance and complete homework more consistently.

As a district, we have seen firsthand the positive impact of family engagement on student success and school improvement. And we encourage all parents to take an active role in their children's education all year round. Thank you again for being part of the District 91 education team.

Learn more on how you can contribute to your student's success by visiting the U.S. Department of Education website at [ed.gov/parent-and-family-engagement](https://www.ed.gov/parent-and-family-engagement).
