

Talk Up Your Schools!

Forest Park's Schools Have a Great Story to Tell

As a recent editorial in the Forest Park Review clearly stated, "D91 continues to take a wide range of steps – curriculum revisions, added math coaches, class scheduling more focused on math, new ways of assessing students to make faster adjustments – that make plain a determination to improve the education of every student in the district."

Add to that the continuing efforts to embed racial equity into all aspects of life in our schools, expansion of preschool seats and enhanced after-school programs through the West Cook YMCA, the success of the Power Scholars Academy summer program, as well as partnerships with Forest Park and River Forest schools, and you have many exciting initiatives taking shape throughout District 91.

So take every opportunity to talk up your schools!
