

Not Remotely What We Had in Mind!

Forest Park School District 91

Years from now, families in Forest Park will be talking about “Back to School 2020”, when District 91, like so many other school districts across the nation, held their first day of classes... remotely! They will remember that our teachers, bringing amazing energy and thoughtful planning to their lessons, taught remotely from their classrooms, while parents and caregivers worked hard to keep their children upbeat, positive and engaged every school day!

This was not how we planned it. There was supposed to be the annual Back to School Celebration, bringing families out to the playground behind Field-Stevenson and FPMS on a warm summer evening to share some fun before the school year began. There was the anticipation of meeting up with friends the first day and finding your locker. It was preschool and middle school and music, art and athletics. In addition, there was the knowledge that school was not just an opportunity to learn, but also a place to grow socially with your friends.

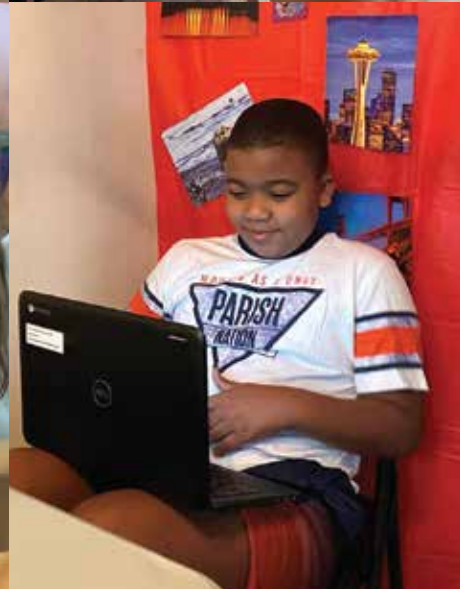

Nevertheless, this year is different. This year is unique. We are learning at a distance...at least for the first couple of months. This year is about education through the lens of technology and ensuring everyone has the tools to succeed.

We are all in this together!

Sincerely,

Lou

Dr. Louis Cavallo
Superintendent of Schools
