

Betsy Ross Primary School

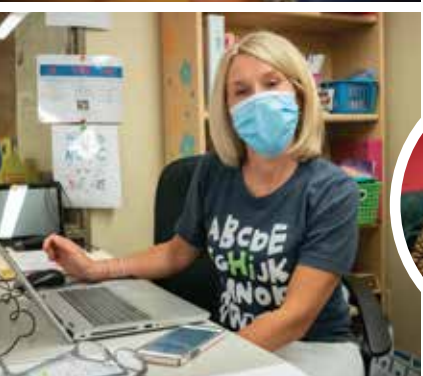

Remote Learning Report

Forest Park School District 91

At Betsy Ross Primary School, making an effective transition to remote learning has been difficult at times. Our teachers are working with new technologies. Our students are experiencing a completely new way to learn. In addition, many parents struggle to find a balance between work and helping their children with school. The good news? We are all working hard to strive for educational excellence at Betsy Ross, even from a distance.

I am proud of our teachers and staff who work tirelessly to build healthy student relationships and connections in a virtual world in order to create magical teaching moments every single day. I am also proud of our custodial staff who keep our school building clean and safe. In addition, I am extremely proud of our Betsy Ross families: parents and caregivers who make education their number one priority and their children who thirst to learn.

One of these days, we will all be back in our classrooms. Until that time, please stay safe and keep the learning lamp on!

Sincerely,

Principal Tinisa Huff
