National Principals Month

Forest Park School District 91

Take a Moment to Thank Your Principal!

This year – especially this school year – it is so important to recognize the contributions of our school principals at Betsy Ross Primary School, Field-Stevenson Intermediate School, Forest Park Middle School, Forest Park Preschool, Garfield Primary School and Grant-White Intermediate School.

Through visionary leadership and tireless pursuit of success for each student, our principals guide and support their schools in ways large and small every day. In addition, as we continue to face new challenges in District 91 presented by COVID-19, our principals have come through when it matters most, managing the successful shift to remote instruction at the beginning of the school year as well as preparing their buildings and their staffs should students return to in-person instruction sometime this school year.

So take this opportunity to say thanks to your principal for a job well done!
